- Easily opens in both directions
- Quick and easy installation
- Available with anti-personnel fence panels with custom infill options
- Available in 12ft to 30ft single gate widths
- Available in 15ft to 40ft double gate widths (2 gate leave with center latch)
- A gate operator may be added for automatic operation
- Lead times 4-5 Weeks

Banshee Manual Swing Crash Gate

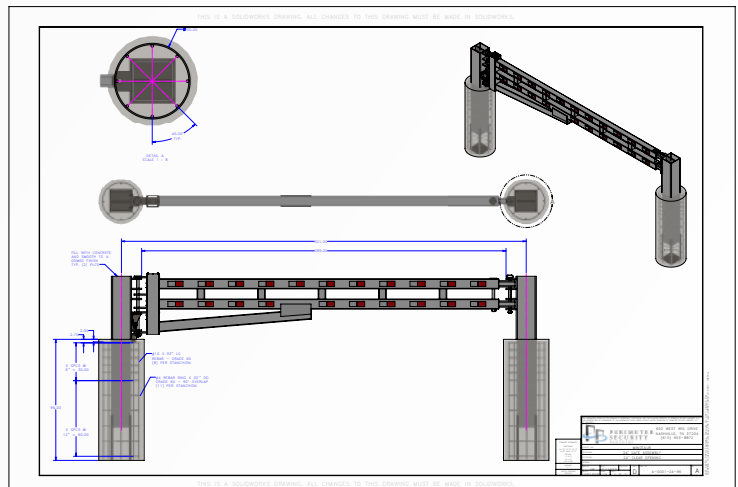

- Engineered to resist a 15,000-lb. impact at 30 MPH equivalent to the ASTM M30 P2 standard
- Galvanized or painted finish available
- Ties in seamlessly with a variety of post & cable passive barrier systems and other fence reinforcements
- Easily opens in both directions
- Quick and easy installation
- Available with anti-personnel fence panels with custom infill options
- Available in 12ft to 30ft single gate widths
- Available in 15ft to 40ft double gate widths (2 gate leave with center latch)
- A gate operator may be added for automatic operation
- Lead times 4-5 Weeks

FEATURES

- ▶ PSP's Manual Swing Gates are safer alternatives to Drop Arm type barriers
- ▶ Easily mount warning signs, corporate logos, and other information on the face of the gate
- ▶ No excavation is required across the roadway, unlike wedge barriers, net barriers, or bollards
- ▶ Extremely low maintenance requirements
- ▶ Cost effective protection

INSTALLATION LOCATIONS

- Military Facilities
- Energy Substations
- Ports of Entry
- Schools
- Industrial Sites
- Chemical Facilities
